

Quant Finance Algorithmic Challenge

Take part in a free online interactive workshop on Quantitative Finance for postgraduates and postdoctoral researchers based in Serbia.

Wednesday 10th November 2021

- Algorithmic Trading Game: 6:00 pm – 8:15 pm (CEST)
- Q&A and online networking: 8:15 pm – 10:00 pm (CEST)

Register your interest by filling out the form at <https://bit.ly/quant-challenge-serbia>. We'll ask for your contact details, and information around your current studies (University, Subject, Degree Programme [BSc, MSc, PhD etc.] and graduation date). If you would like to join as a team with up to 2 friends, just let us know by emailing quant.events@gresearch.co.uk.

Please note, you will need a fully charged laptop, a good internet connection, Chrome or Safari, and headphones to take part.

Once you have registered you will receive a unique link to join the event which you should use to log in by 5:45 pm (CET), so that you can meet your teammates and learn how to navigate the online event space. More information on the event will be emailed to you one day before.

Once the game is complete, you will have the opportunity to stay online for some virtual networking where you can discuss the event and life at G-Research with our Quant Researchers.

Each member of the winning team will receive an Amazon voucher, and all attendees will get to vote on a charity that G-Research will donate £1,000 to.
